

My family and I all listen to K-LOVE radio on 91.9 FM in San Jose, CA as well as occasionally we listen to 103.1 when we are in Morgan Hill, CA. It is the only radio station we listen to. We enjoy the "positive, encouraging music" that K-LOVE provides. If it were to be removed from the airwaves, it would be very devastating to myself, my wife and 5 children, ages 2-14, who all enjoy this station immensely. We receive so much encouragement in our family life, our relationships and our interaction with the world around us. This community needs this type of programming to encourage strong moral foundations in our interactions with each other. This type of programming cannot be found anywhere else on the radio dial. K-LOVE is unique in this area. Without K-LOVE, a gaping hole would be created in the landscape of radio programming that is "positive and encouraging" and listener supported, to which we are happy to contribute. PLEASE DO NOT REPLACE THE K-LOVE SIGNAL!
